Offline Setup is a full offline standalone setup that you can download and install it from here. This program was tested by members of our forums with a few Windows versions. Unless you want to have the full version of a game, they will download it automatically and decompress it and install it on your Windows. The file will download directly to your hard drive and be installed in seconds. Offline Setup allows you to play offline without an internet connection. In order to start the installation, you need to download the Offline Setup file and decompress it. You can drag the decompressed folder to the main directory of your computer. When it's ready, click "Install" to start the installation. Offline Setup for Windows Online Setup will not allow you to play the game offline when the online link is down. Offline Setup for Windows also installs the game on your computer without requiring an online connection. The game's description page explains how to use Offline Setup to install the game. File size: About 11 MB. The download file is ready to download. You can click "Save Link/Somewhere", and then "Download Linked File" to save this file to your computer.
